Dear colleague,

We are pleased to send you the fourth newsletter of the IDEEM project (“Implementation of the MSFD to the Deep Mediterranean Sea”). The IDEEM project involves institutional partners of the Mediterranean area from EU and non-EU countries. The IDEEM consortium is composed by 9 partners belonging to 6 countries: Università Politecnica delle Marche (coordinator, UNIVPM, Italy), Consiglio Nazionale delle Ricerche (CNR, Italy), Agencia Estatal Consejo Superior de Investigaciones Científicas (CSIC, Spain), Department of Fisheries and Marine Research - Ministry of Agriculture, Rural Development and Environment (DFMR, Cyprus), Agenzia Nazionale per le Nuove Tecnologie, l'Energia e lo Sviluppo Economico Sostenibile (ENEA, Italy), Institut Français de Research pour l'Exploitation de la Mer (IFREMER, France), Tel Aviv University (TAU, Israel), Universitat de Barcelona (UB, Spain) and University of Malta (UM, Malta).

The two-years project IDEEM (started in 2017 April) has been funded by DG Environment of the European Commission through the call “Implementation of the Second Cycle of the Marine Strategy Framework Directive: achieving coherent, coordinated and consistent updates of the determinations of Good Environmental Status, Initial Assessments and Environmental Targets”.

The IDEEM project website www.msfd-idem.eu provides information on news, main activities in progress, expected results, research products, and events. Stakeholders are welcome for the establishment of a participatory multi-actor dialogue among researchers, policy makers, civil society organisations, NGOs and citizens.

New reports!

We are pleased to share two IDEEM [deliverables](#):

- Report 2.2. “Report on the first assessment of the deep Mediterranean environmental status” ;
- Report 2.3. “Report on habitat/ecosystems/pressure mapping in GIS.”

Both reports 2.2 and 2.3 are available by request to the IDEM project e-mail idemproject@univpm.it.

Other deliverables are available online in our project website www.msfd-idem.eu (Section Research products → [deliverables](#)):

- Report 1.1. "Review and collection of the available datasets on indicators and human pressures/impacts on Mediterranean deep-sea ecosystems" (<http://doi.org/10.13155/53809>).
- Report 2.1. "Report on the review and collection of the available datasets on indicators and human pressures/impacts on Mediterranean deep-sea ecosystems" (<http://doi.org/10.12910/EAI2018-074>)

Forthcoming event

Israel, Tel Aviv. February 5-7, 2019

The next IDEM [workshops](#) M3.1 “*Gaps and needs for the implementation of the MSFD in the Mediterranean deep sea*” & M4.1 “*Guidelines for the definition of deep-sea protected areas*” will take place in Tel Aviv, Israel, 5-7 February 2019.

Venue: The Steinhardt Museum of Natural History at Tel Aviv University Tel Aviv.

The Symposium – “Gaps and needs for the implementation of the MSFD in the Mediterranean deep sea” – is open to the public on Wednesday 6 February (hours 09.30 - 16.30).

The [agenda](#) of the symposium is now available.

[Invitations](#) to the Steinhardt Museum of Natural History at Tel Aviv ([website](#)).

Recent IDEM event

October 23-24, 2018 -Meeting “Communication du projet européen IDEM (Implementation of the MSFD to the Deep Mediterranean Sea”) vers les pilotes scientifiques et les responsables de la DCSMM ”, organized by the Institut Français de Recherche pour l'Exploitation de la Mer (Ifremer). DIRM (Marseille), Ifremer - Center of Mediterranean (Z.P. Bregaillon, La Seyne sur Mer). [Press release](#).

“Valletta Declaration”

The IDEM project coordinator (Prof. R. Danovaro), the project team and the stakeholders participating at the workshop “*First assessment of the deep Mediterranean environmental status*” held at the University of Malta, Valletta Campus (5 – 7 September, 2018) agreed to jointly sign a call to the Member and Associated States, the European Commission and the Parliament for a transnational

cooperation for implementing the Marine Strategy Framework Directive in the deep Mediterranean Basin: the “[Valletta Declaration](#)”. This document, written during the progress of the workshop, highlights the need for a transnational cooperation to build the synergies in research efforts, the building capacity and standardisation of future data collected, and an holistic approach across the entire Mediterranean Sea. The "Valletta Declaration" has been already signed by many scientists, considering their projects or Institutions.

THE VALLETTA DECLARATION IS OPEN TO STAKEHOLDERS WHO WISH TO SIGN IT BY SENDING A MESSAGE TO THE IDEM PROJECT E-MAIL (idemproject@univpm.it) TO JOIN THE LIST.
